

melody and rhythm of freedom for all

*small concert and musical activities in memory with
Welcome to Europe*

We would like to look back on migrant struggles and we want to face the reality today on the island. A reality of an organized permanent crisis, with the hot-spots like Moria made to deter people and break their will to move freely - but people continue moving. 10 years after Noborder '09 on Lesvos we want to celebrate continuity and stubbornness we have learned together in these migrant struggles.

The deaths in Moria and the camps on the mainland Greece are kept in silence. We want to commemorate those who died and to renew the promise to continue in our try to tear down these deadly borders that separate us.

27.09.19 - FRIDAY

Time: around 20:00 / Mytilini city
(exact place to be announced)
